

Please do not do anything to weaken the "Telephone Privacy Act" in the state of Indiana. Before I was listed on the "no call" list we would receive 2-3 calls per day from unwanted solicitors. I became a grouch with these callers as I didn't want to buy the products they were selling. Now we rarely receive any solicitation calls. The "no call"list is a blessing. My evenings are now mine, and when my phone rings, I know it is my friends or family calling, not a solicitor. Cheers to Stephen Carter, Indiana Attorney General.
